Technical Skills

Languages (JavaScript, TypeScript, SQL (Postgres), HTML/CSS)

Frameworks (React, Next.js, Node.js, Tailwind CSS, Material-UI, Three.js, GraphQL, Prisma, Jest, Cypress)

Developer Tools (Git / Github Actions, Google Cloud Platform, Docker, Visual Studio Code, JIRA)

Libraries (Socket.io, Passport.js, Framer Motion, Recharts, Zod)

Experience

React/Web3 Developer

Mar 2022 – present | Dubai

ColossalBit

- Enhanced app performance by optimizing API calls, cutting load times for a 15% speed boost
- Collaborated with cross-functional teams to ensure timely delivery of project milestones
- Developed immersive 3D visualization components with Three.js and WebGL
- Refactored and improved existing codebase, resolving issues and enhancing functionality
- Optimized client-side scripts, boosting performance by 25% through precise debugging
- Enabled MetaMask wallet for NFT transactions and integrated payment systems for smooth asset trading

Frontend Developer

Jan 2020 – 2022 | Pakistan

Al-muqsit cyber solutions

- Worked on a large-scale web application using React and AWS resulting in a 30% increase in user satisfaction
- Collaborated closely with backend developers to integrate frontend with backend APIs seamlessly
- Implemented new features with quality code within tight deadlines
- Verified component functionality through Jest and Enzyme testing frameworks
- Transformed design concepts into functional components through collaboration with designers

Projects

Luma Delightful events start here.

- User authentication integrated with JWT tokens and cookies for enhanced security and precise user access control
- Established a secure payment system with multiple payment options.
- Utilized React code-splitting to enhance performance by reducing client-side script load with complex components
- Implemented responsive design principles to ensure optimal display across various devices and screen sizes

Site URL: <https://lu.ma/> 

Tech Used: Next.js, Stripe, Sentry, Goober (css-in-js solution), Typescript, Zustand

ChainGPT - Crypto AI Tools

- Implemented smart contracts for secure NFT minting, trading, and ownership transfer
- Utilized secure MetaMask integration for seamless wallet interactions across various blockchain networks,
- Advanced search functionality integrated for efficient searching through thousands of NFTs
- Refactored and thoroughly documented code from other developers to enhance readability and maintainability
- Implemented automated testing suite to ensure smart contract reliability and platform stability

Site URL: <https://app.chaingpt.org/> 

Tech Used: Next.js, Web3, Solidity, Chakra-UI, React Query, Zod

Education

Self-taught through online resources including Google, YouTube tutorials, educational blogs, official documentation, Udemy, and Udacity.

Courses

Bootcamp Web Development (12-week intensive program)

Cisco Networking Academy

2018
