PROFILE

Experienced Full Stack Developer proficient in React, TypeScript, and PostgreSQL. Dedicated to delivering top-tier results collaboratively in dynamic environments. Skilled in translating design mockups into pixel-perfect interfaces.

EXPERIENCE

ColossalBit, *React/Web3 Developer*   03/2022 – present | Dubai
- Enhanced app performance by optimizing API calls, cutting load times for a 15% speed boost
- Collaborated with cross-functional teams to ensure timely delivery of project milestones
- Developed immersive 3D visualization components with Three.js and WebGL
- Refactored and improved existing codebase, resolving issues and enhancing functionality
- Optimized client-side scripts, boosting performance by 25% through precise debugging
- Enabled MetaMask wallet for NFT transactions and integrated payment systems for smooth asset trading

Al-muqsit cyber solutions, *Frontend Developer*   01/2020 – 2022 | Pakistan
- Worked on a large-scale web application using React and AWS resulting in a 30% increase in user satisfaction
- Collaborated closely with backend developers to integrate frontend with backend APIs seamlessly
- Implemented new features with quality code within tight deadlines
- Verified component functionality through Jest and Enzyme testing frameworks
- Transformed design concepts into functional components through collaboration with designers

PROJECTS

Luma, *is all you need to host a memorable event* ⧉
Live URL: *https://lu.ma/* ⧉
- User authentication integrated with JWT tokens and cookies for enhanced security and precise user access control
- Established a secure payment system with multiple payment options.
- Utilized React code-splitting to enhance performance by reducing client-side script load with complex components
- Implemented responsive design principles to ensure optimal display across various devices and screen sizes

ChainGPT, *The premiere AI-powered dashboard for Web3.*
Live URL: https://app.chaingpt.org/ ⧉
- Implemented smart contracts for secure NFT minting, trading, and ownership transfer
- Utilized secure MetaMask integration for seamless wallet interactions across various blockchain networks,
- Advanced search functionality integrated for efficient searching through thousands of NFTs
- Refactored and thoroughly documented code from other developers to enhance readability and maintainability
- Implemented automated testing suite to ensure smart contract reliability and platform stability

TECHNICAL SKILLS

Languages — *Html, CSS, SASS/SCSS, JavaScript, TypeScript*

Frameworks — *React/Redux, React Native, Next.js, GraphQL, Tailwind, NodeJS, Three JS, Jest, Storybook*

Databases/ORM — *MySQL, PostgreSQL, Prisma, Subabase, GraphQL, Redis*

Developer Tools — *Git / Github Actions, Docker, Visual Studio Code, JIRA, Agile/Scrum methodology*

EDUCATION/CERTIFICATES

Punjab College, *Intermediate in Computer Science*   2015 – 2017

Cisco Networking Academy, *Bootcamp Web Development*   2018

Linkedin, *3D Graphics on the Web with Three.js*   2022

Github, *Career Essentials in GitHub Professional Certificate*   2024
